EXPENSES

Overall expenses decreased 4% on 1H24, while revenue* was up 7%

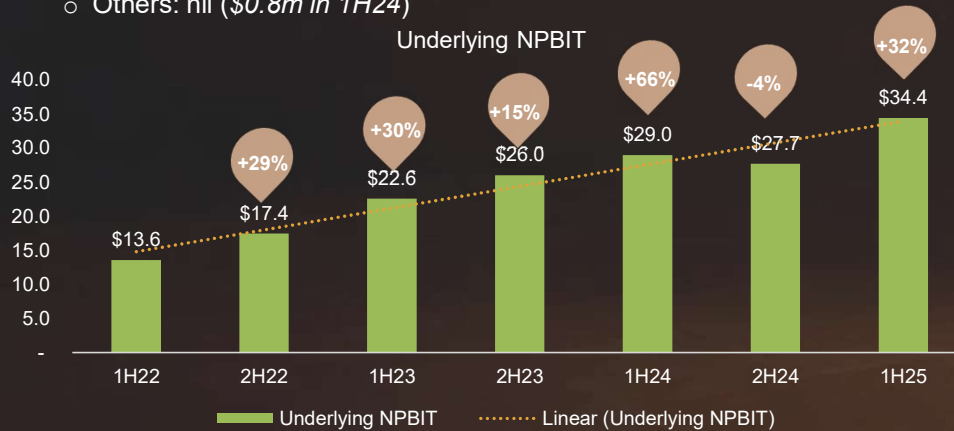

- Service expenses increased marginally by \$0.6m or 2%, reflecting effective cost disciplinary measures implemented to counter-effect the persistent inflationary pressure.
- Servcorp continued its strategic investment in marketing initiatives and raised the marketing and advertising spending by an additional \$3.1m or 32% on pcp. The investment returned a pleasing growth in sustainable revenue stream by \$10.9m on pcp and a healthy business development pipeline to drive further revenue growth.
- Lease & Occupancy expenses remain the largest component of the cost profile. Costs year-on-year increased by \$1.1m, arising from the additional rental expenses incurred as the global footprint continued expanding, partially negated by the additional incentive obtained through lease negotiation as well as the natural decline of lease interest expense throughout the life cycle of leases under IFRS16. More than half of the active lease portfolio has more than 3 years residual life at 31 December 2024.
- Administrative expenses were \$0.5m higher on pcp, largely driven by the one-off spending incurred on the Middle East project.
- Other losses/ (gain) included a one-off net credit adjustment of \$8.0m, made up of \$14.9m credit from derecognition of lease liability offset by \$6.8m impairment.

PROFITABILITY

Underlying Operating Profit up 22%*; Statutory NPBT up 70%*

- Strong 1H25 Underlying NPBIT of \$34.4m, up \$5.5m or 19% on pcp**, supporting progress toward meet the full-year profit guidance
- Statutory NPBT includes non-recurring credit adjustment totalling \$6.8m (\$4.5m net cost in 1H24):
 - One-off net credit adjustment of \$8.0m, made up of:
 - Gain from derecognition of lease liability of \$14.9m (nil in 1H24); and
 - Impairment losses in North Asia and Europe of \$6.8m (\$1.6m in 1H24)
 - Closure & termination costs: nil (\$0.2m in 1H24)
 - Reorganisation costs: \$1.2m (\$1.4m in 1H24)
 - Amortisation of acquired contract value: nil (\$0.5m in 1H24)
 - Others: nil (\$0.8m in 1H24)
